5. LIBRARY BOOK RESERVATION SYSTEM (SaaS)

AIM

To develop a Library Book Reservation System for SIMATS and deploy it as SaaS using Zoho Creator.

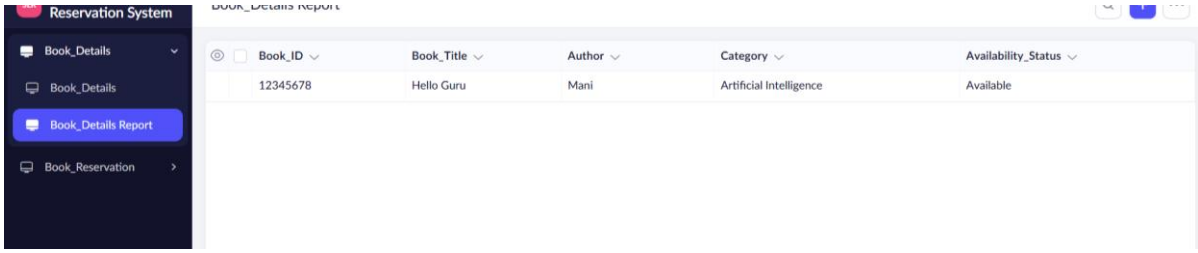
ALGORITHM

1. Start
2. Login to Zoho Creator
3. Create application
4. Create library form
5. Add book and student details
6. Create report
7. Run application
8. Enter reservation data
9. Display reservation details
10. Share application link
11. Stop

PROCEDURE

1. Create application (**SIMATSLibraryApp**)
2. Create form (**LibraryReservationForm**)
3. Add fields: Student Name, Register No, Department, Book Title, Author, Issue Date, Return Date, Email
4. Create report (**LibraryReport**)
5. Run application and enter data
6. View reservation details in report
7. Share application link

OUTPUT SCREENSHOT



RESULT

A Library Book Reservation System was successfully developed and deployed as SaaS using Zoho Creator.
